### Northrop Grumman Dedicates Habitat for Humanity House

NEWPORT NEWS, Va., - July 11, 2008 – Northrop Grumman Corporation (NYSE: NOC) and the United Steelworkers (Local 8888) held a dedication ceremony on July 10 to celebrate the completion of the sixth house built for Habitat for Humanity serving the Virginia Peninsula.

Habitat for Humanity builds simple and affordable houses in partnership with those in need of adequate shelter. The one-story house is located on 25<sup>th</sup> Street in Newport News, Va. and is approximately 1,200 square feet with three bedrooms and two baths. A portion of the land was donated by Mr. Ray Bodie, a former Hampton resident and the remaining half was purchased by Habitat.

Northrop Grumman Shipbuilding Newport News provided volunteers and financial support and coordinated the resources for this project.

“Just like we build ships and we take piles of steel, spools of cable and miles of pipe and turn it into a ship, its nothing more than a ship until the crew comes along and brings it to life,” said Danny Hunley, vice president, operations, Northrop Grumman Shipbuilding-Newport News. “When we build a house, that’s what we build. We take lumber, pipe and cable and we turn it into a house. It’s the love that the homeowners bring that turns this house into a home.”

Mayor Joe S. Frank, city of Newport News; representatives from Northrop Grumman; the United Steelworkers; Habitat for Humanity and homeowner Karen Hampton participated in the ceremony.

“Northrop Grumman is our homebuilder and they’re our dream builder,” said Hampton. “I’m so thankful to have been introduced to a company who has given me the chance to prove that I was ready to be a homeowner.”

Northrop Grumman Corporation is a global defense and technology company whose 120,000 employees provide innovative systems, products, and solutions in information and services, electronics, aerospace and shipbuilding to government and commercial customers worldwide.
